EDUCATION

Harris School of Public Policy, University of Chicago

Master's in Public Policy

Illinois, USA

2025—(Anticipated 2027)

Anticipated Coursework: Microeconomics, Statistics, Electricity Grid Financing, Impact Investing, Utilities and Electricity Markets in US, Energy and Environmental Econ, Political Economy of Climate Change, Int'l Climate Policy

Indian Institute of Technology, Gandhinagar

MA in Society & Culture, specialization in Human Development & Public Policy

Gujarat, India

2018–2020

Kirori Mal College, University of Delhi

BA(Hons) English

New Delhi, India

2015–2018

PROFESSIONAL EXPERIENCE

University of Chicago

Research Assistant

Chicago, USA

Jul'25 — Present

- **Modeled** provider antibiotic dispensing behavior via (logit) regression; tested interaction effects between provider characteristics and antimicrobial resistance knowledge
- **Drafted** high-frequency checks (HFC) do-files in Stata for real-time data quality monitoring & **performed** extensive data cleaning, consistency checks, and produced detailed documentation for the Day Labour survey dataset, Pakistan
- **Programmed** a multi-module teaching instrument in SurveyCTO, incorporating skip logic, constraints, relevance conditions, and field-level validations to ensure high-quality data collection.

J-Poverty Action Lab, South Asia

Senior Research Associate

Multiple locations in India

Apr'22 — Aug'25

- **Conducted** econometric analysis on administrative and survey datasets using Stata and Python (pandas, statsmodels), conducting regression models, balance checks, and robustness tests; estimating ATE and ITT
- **Estimated** OLS regression models in Stata on labor wage rates, production costs, and yield penalties across mechanization treatment areas
- **Analyzed** farmer's adoption characteristics for mechanisation in Telangana and Odisha including risk aversion and time-vs-money preferences; produced data visualizations and summary tables to support research outputs
- **Tested** hypotheses on agricultural technology adoption using randomized trial data, identifying behavioral patterns in adoption rates & detecting higher uptake among farmers located near progressive agricultural hubs and urban markets
- **Built** geospatial models using satellite imagery (3 years data) to identify spatial risk patterns in groundwater depletion, integrating terrain, irrigation, & other environmental factors
- **Conducted** web scraping & large-scale data processing in Python using pandas, numpy, & geopandas to integrate administrative, survey, & environmental datasets for policy analysis
- **Built** Google Apps Script automation tools that reduced manual file-processing time by 60%, significantly improving team productivity & data pipeline efficiency

Grassroots Research & Advocacy Movement (GRAAM)

Research Associate

New Delhi, India

Jan'21 — Mar'22

- **Built** Python data pipelines (pandas, numpy) for data cleaning, constructing outcome and index variables for logit regression models analyzing demand elasticity in healthcare markets
- **Designed** a performance matrix to enhance grassroots health service delivery in Gujarat, producing data-driven insights to guide policy frameworks

Department of HSS, IIT Gandhinagar

Research Associate

New Delhi, India

Aug'20 — Dec'20

- **Conducted** exploratory analysis to visualize supplementary nutrition programme & co-authored a report on [Take Home Ration](#), influencing policy decisions to address undernutrition & hunger
- **Published** a book chapter, "[Ageing Queer Bodies the Psyche: A Qualitative Study from Mumbai, India](#)" in the Handbook of Aging, Health Public Policy, demonstrating strong technical writing skills

LEADERSHIP & INVOLVEMENT

Senior Associate, J-Poverty Action Lab, South Asia

- **Managed & mentored** a 3 interns and 7 Associates, offering guidance on project coordination and learning new technical and soft skills

SKILLS

- Data & Analysis: Stata, Python, QGIS, R, Excel
- Visualisation & Communication: Tableau, PowerBI, R (ggplot2), PowerPoint, LaTeX
- Productivity: MS Office, Google Apps Script
