EDUCATION

Harris School of Public Policy, University of Chicago

Master's in Public Policy

Illinois, USA

2025–(Anticipated 2027)

Relevant Coursework: Utility & Electricity Markets, Grid Financing, Impact Investing, Microeconomics, Statistics

Proud Project: Built optimal power-procurement strategy for two 100-MW AI data centers on ERCOT; modeled LMPs, spark spreads, and BESS valuation via least-squares Monte Carlo to produce a full revenue model

Indian Institute of Technology, Gandhinagar

MA in Society & Culture, specialization in Human Development & Public Policy

Gujarat, India

2018–2020

Kirori Mal College, University of Delhi

BA (Hons) English

New Delhi, India

2015–2018

PROFESSIONAL EXPERIENCE

Cook County Bureau of Economic Development

Summer Intern

Chicago, USA

Jun 2026 – Aug 2026

- **Designing** a records retention schedule for county government by mapping 180+ GB of departmental data to 17 functional record series, coordinating input from senior stakeholders across Finance, Communications, and Policy
- **Building** a technology maturity assessment adapted from a Gartner IT Score framework across 4 workstreams, translating findings into an executive-facing deck used to prioritize IT investment
- **Drafting** a data closeout and destruction SOP aligned to NIST SP 800-88 and supporting SOC 2 compliance tracking, standardizing governance practices across the operations team

Becker Friedman Institute for Economics, University of Chicago

Research Assistant

Chicago, USA

Jul 2025 – Jun 2026

- **Modeled** provider antibiotic dispensing behavior using logit regression; tested interaction effects between provider characteristics and antimicrobial resistance knowledge
- **Drafted** high-frequency checks (HFC) do-files in Stata for real-time data quality monitoring; performed extensive data cleaning, consistency checks, and produced detailed documentation for the Day Labor survey dataset, Pakistan
- **Programmed** a multi-module instrument in SurveyCTO, incorporating skip logic, constraints, and relevance conditions to ensure high-quality data collection

J-PAL South Asia

Senior Research Associate

Multiple locations, India

Apr 2022 – Aug 2025

- **Managed** data collection across multiple studies, ensuring research design fidelity, minimizing enumerator effects and measurement bias, and validating survey tools and data quality
- **Scoped and evaluated** intervention ideas to reduce groundwater usage in Punjab, testing feasibility through field work with farmers, government officials, and economists; delivered policy memos to inform decision-making
- **Analyzed** farmers' adoption characteristics for mechanization in Telangana and Odisha including risk aversion and time-vs-money preferences; produced data visualizations and summary tables to support research outputs
- **Conducted** a qual study on cold storage rollout in Odisha with Delivery Associates as partner, assessed farmer adoption barriers and quantified potential savings from reduced weather-driven distress selling
- **Managed** a project budget of up to \$600K, including allocated funds across workstreams, making real-time adjustments as project needs evolved, and preparing budget and deliverable reports for funders

Grassroots Research & Advocacy Movement (GRAAM)

Research Associate

New Delhi, India

Jan 2021 – Mar 2022

- **Built** a performance measurement framework for grassroots health service delivery in Gujarat, using logit models on Python-cleaned datasets to guide policy prioritization for state health officials
- **Delivered** capacity-building workshops on quantitative analysis for 300+ government and think-tank stakeholders across Gujarat and Jharkhand, improving data-driven decision-making and operational efficiency by 25%

LEADERSHIP & INVOLVEMENT

- **Fellowship**, Clean Energy Leadership Institute (CELI); focus on clean energy and cross-sector energy network
- **Senior Associate, J-PAL South Asia:** Mentored 5 Associates from varied academic and professional backgrounds on project execution and technical skill-building; coordinated logistics and vendor relations for large scale data collection

SKILLS

- **Data & Analysis:** Stata, Python, R, Excel, QGIS
- **Visualization & Communication:** Tableau, PowerBI, Smartsheets, PowerPoint, R (ggplot2), LaTeX
