EDUCATION

Harris School of Public Policy, University of Chicago

Illinois, USA

Master's in Public Policy

2025–(Anticipated 2027)

Current Coursework: Utility & Electricity Markets, Grid Financing, Microeconomics, Statistics, Impact Investing

Anticipated Coursework: Energy Law, Market Implications of Environmental Regulations, ESG & Impact Investing, Data Visualisation, Environmental Economics

Indian Institute of Technology, Gandhinagar

Gujarat, India

MA in Society & Culture, specialization in Human Development & Public Policy

2018–2020

Kirori Mal College, University of Delhi

New Delhi, India

BA(Hons) English

2015–2018

PROFESSIONAL EXPERIENCE

Data Science Institute, University of Chicago

Chicago, USA

Summer Research Assistant, AI for Climate Action

Jul 2026 – Sep 2026

- **Working** with Profs. [Jim Franke](#) and [Pedram Hassanzadeh](#) on applying AI methods to climate modeling and climate action research

Cook County Bureau of Economic Development

Chicago, USA

Summer Intern

Jun 2026 – Aug 2026

- **Mapping** electric vehicle markets across Cook County to identify entry points for increasing energy access and reducing electric bills for county residents

J-Poverty Action Lab, South Asia

Multiple locations in India

Senior Research Associate

Apr 2022 – Aug 2025

- **Built** econometric models in Stata, R, and Python, including regression analysis, cost-benefit frameworks, and power calculations, to evaluate energy and climate interventions; presented findings to senior economists and government stakeholders
- **Modeled** market-based financial incentive structures for agricultural energy use in Telangana; conducted cost-benefit analysis projecting 10% production cost reduction and 30% carbon emissions decrease across 6 districts
- **Developed** predictive spatial models using QGIS to process satellite imagery across 200+ sites; mapping flood risk and resource stress indicators for climate adaptation research; automated scripting integrations reduced analysis time by 40%, informing policy decisions for 500,000+ residents
- **Prepared** quantitative analyses and financial projections supporting 10+ grant proposals totaling \$600K+; synthesized econometric outputs into briefing documents for non-technical stakeholders
- **Built** Google Apps Script automation tools, reducing manual file-processing time by 60%, significantly improving team productivity & data pipeline efficiency

Grassroots Research & Advocacy Movement (GRAAM)

New Delhi, India

Research Associate

Jan'21 – Mar'22

- **Built** Python data pipelines (pandas, numpy) for data cleaning, constructing outcome and index variables for logit regression models analyzing demand elasticity in healthcare markets
- **Designed** a performance matrix to enhance grassroots health service delivery in Gujarat, producing data-driven insights to guide policy frameworks

Department of HSS, IIT Gandhinagar

New Delhi, India

Research Associate

Aug'20 – Dec'20

- **Conducted** exploratory analysis to visualize supplementary nutrition programme & co-authored a report on [Take Home Ration](#), influencing policy decisions to address undernutrition & hunger
- **Published** a book chapter, "[Ageing Queer Bodies the Psyche: A Qualitative Study from Mumbai, India](#)" in the Handbook of Aging, Health Public Policy, demonstrating strong technical writing skills

LEADERSHIP & INVOLVEMENT

Senior Associate, J-Poverty Action Lab, South Asia

- **Managed & mentored** a team of 5 Associates, offering guidance on project coordination and learning new technical and soft skills
- **Coordinated** training events for 200+ participants, handling logistics, vendor relations, ensuring seamless execution

SKILLS

- Data & Analysis: Stata, Python, QGIS, R, Excel
- Visualisation & Communication: Tableau, PowerBI, R (ggplot2), PowerPoint, LaTeX
- Productivity: MS Office, Google Apps Script
